The Performance Team Series is Richardson's collection of premium, on-field products designed to be the player's choice. From game-ready headwear and uniforms to performance apparel and accessories, each item was created with insights from players at the highest levels of the game and represents our 54-year commitment to excellence.

Play Ball!

FABRICS

Creating performance products intended to be the player's choice starts with premium, high-performance materials. Each Performance Team Series fabric is designed for performance first while also offering a look and feel that's authentic to the game. From modern woven stretch to the traditional wool look of poly-serge, Richardson PTS fabrics are designed to play ball.

IGNITE LT

Ignite LT is durable, lightweight, and stretches for fit and comfort while wicking away moisture with Stay-Dri technology

PULSE

Pulse performance fabric improves fit and wicks away moisture with Stay-Dri technology

SURGE

Surge delivers the classic baseball look and feel of wool serge but with Stay-Dri moisture management and improved flexibility

MATRIX

Matrix pin-dot mesh stretches for an improved fit that enhances ventilation while keeping players dry with Stay-Dri technology

PTS30 ...

IGNITE LT R-FLEX ■ U-FORM VISOR ## WICKING

The PTS30 is a game-changer under the lights or peak summer sunshine. Constructed in a Mid Pro shape from our lightest-weight Ignite LT fabric, this cap features laser-vented back panels for maximum comfort and breathability. And it's available in three R-Flex sizes for flexible sizing.

78 | BEANIES RICHARDSON

Underbill

The underside of a hat's bill or brim. This area can be designed with various colors, patterns, or textures, distinct from the rest of the cap, adding an additional element of style. The underbill's color and material can also reduce glare in sunny conditions.

Water Repellent

A combination of tightly woven fabrics and hydrophobic treatments repels water to help keep you dry and protected from the elements.

UPF Protection

UPF stands for Ultraviolet Protection Factor. It's a rating system that measures how much UV radiation a fabric blocks from the sun. The higher the UPF rating, the more UV radiation the fabric will block.

Visor

Visors are designed to shield the sun from your eyes while keeping your head cool. Smaller, simple decorations tend to work best on this style of headwear.
